

Showbizz is not just a consulting firm—it's a visionary platform founded by Mr. Roan Nair to revolutionize the intersection of automotive passion and cinematic creativity. At its core, Showbizz Cars curates a one-of-a-kind business model that merges exotic muscle cars and top-tier luxury vehicles with high-impact film production opportunities, all housed under a single dynamic space.

From vehicle customization and restoration to automotive shoots, music videos, influencer content, and branded entertainment, the firm opens multiple business channels that generate revenue across both the auto and media industries.

This is where horsepower meets the spotlight! Let's build an empire where cars aren't just driven—they're celebrated.

WIMES TO FLY

It's only the " Dead fish go with the flow "!!

A classy, viable and distinctive line of business turns out to be a brand.

Having said that, we would now like to elevate an upscale business with "A state of Art workshop" with a showroom to reroute multiple business streams under one single roof.

The business game plan is absolutely clear by pulling eyes and dropping jaws across "PAN India" by exhibiting super fancy cars at our operational ground and creating breath taking contents to pull below mentioned line of business under the same roof.

What do we rent?

We plan to provide highly exotic muscle cars, premium sports cars, ultra-luxury vehicles, and fully customized show-stoppers—specially curated for top-tier film productions, entertainment houses, and content creators.

We are proud to launch India's first platform dedicated to the sale of customized, aesthetically stunning vehicles — built to match personality and lifestyle just like ready to cook premix meal with multiple finance firms for customer's easy buy.

In today's market, customers are flooded with generic, internet-sourced designs — but no professional setup exists that brings truly original, tailor-made car customization concepts to life. That's where we come in.

At our studio, we redefine automotive personalization by offering exclusive 2D and 3D design visualizations that showcase what's actually possible — not just concepts but execution-ready transformations. From the first sketch to the final reveal, we give customers a clear vision of their car's unique makeover, crafted by expert designers and engineers.

More Than Just a Service, It's a Lifestyle Destination

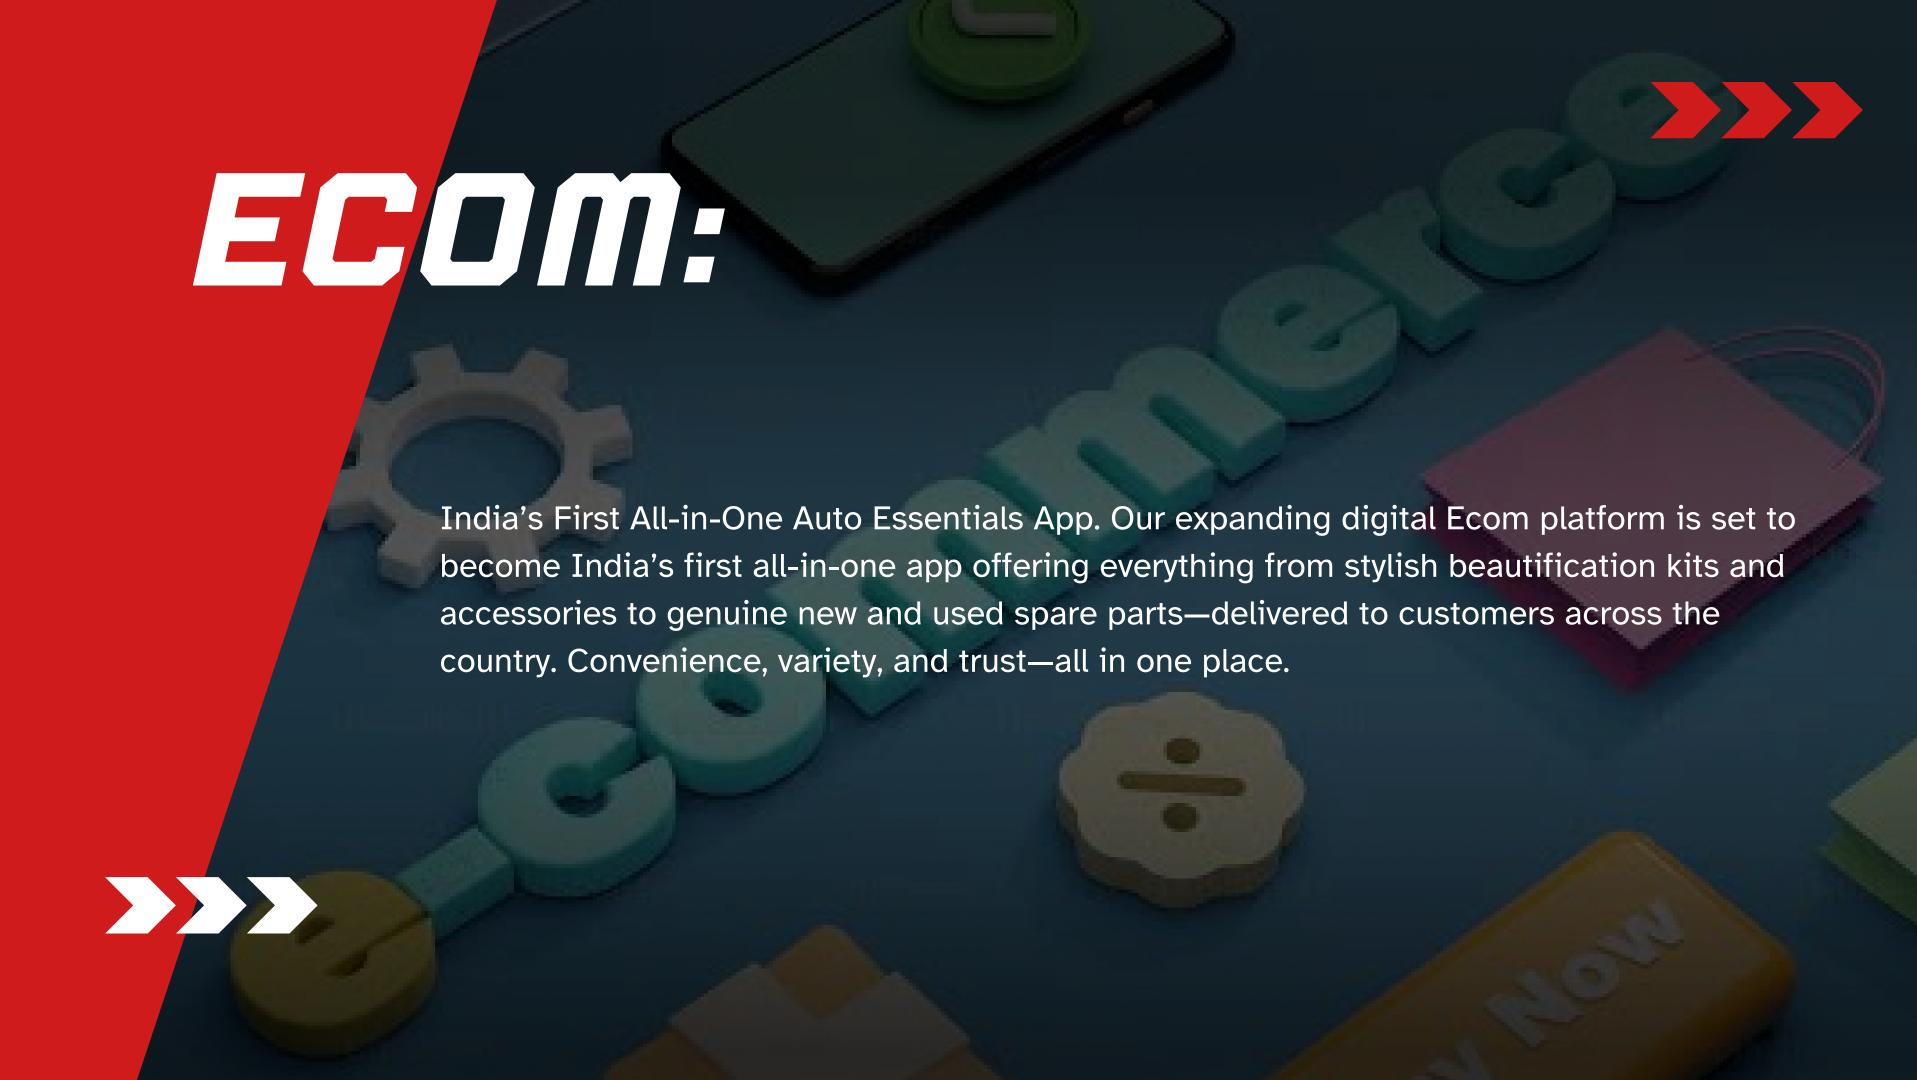

Our studio won't be just a place to get your car washed — it's an automotive experience hub. By showcasing rare and exotic cars, we create a vibrant space that attracts car lovers, turning routine car care into a premium lifestyle encounter.

At our state-of-the-art showroom, every customer is treated to a curated collection of exclusive automotive accessories, from premium body kits to stylish plug-and-play enhancements. These unique add-ons are designed to instantly elevate the look and feel of any vehicle—no wait, no hassle.

Our goal is to help car lovers personalize their ride and boost the car's street presence.

FIFT SUBSCRIPTION

Customers gets a chance to Subscribe to the most entertaining auto makeover platform—where, for less than the cost of a car wash, they can customise or restore the car with expert help and even get featured for the world to watch and to transform the ride and become the next auto celebrity on our digital platform.
